

SUCCESS ORIENTED

Good general language knowledge as well as the mastery of industry-specific vocabulary can often determine the success of your business.

INTERACTIVE LEARNING IS FUN

The language training app from Vision Education supports the general language learning of your employees as well as learning and improving industry-specific vocabulary. With the proven learning method and the innovative LIVEMATCH TECHNOLOGY for interactive learning the process is fun.

EASY TO USE

The advantage: The app can easily be installed on any smart phone with Android or Apple operating systems – only a few investments are needed.

Your employees can access the app using the link directly in the mobile browser or by scanning the QR-Code of the app for installation.*
