

Certificate

Herewith, we confirm that the company

Mustermann GmbH & Co. KG

has committed itself

to analysing grains and grain products for contaminants, pesticides and microbiological parameters on a regular basis and to complying with the highest hygiene standards.

In doing so, the company meets the requirements for participation in the

European Grain Monitoring EGM
in the cereal marketing year 2024/2025.

The European Grain Monitoring is sponsored by the milling and grain trading associations of Germany, Austria and Switzerland and is carried out by biotask AG, Esslingen, Germany.

Esslingen, 1st August 2024
